

OLD TIMER DAY. WARRAGUL.

17th. May 1987.

DURATION CONTEST.

Twenty-six (26) competitors contested the Old Timer Duration Contest on Sunday the 17th. of May. The weather was kind to us this year with a South Easterly breeze blowing most of the day, overcast sky, and just a couple of light showers during the afternoon.

Flying commenced at around ten thirty with the five rounds being completed by about three O'clock with a half hour break for lunch. It became very obvious early in the contest that there would be a Fly-off as many Maxes (four minutes) were achieved and most landing in the fifty metre circle for the landing bonus points. As can be seen by the fact that eight competitors qualified for the fly-off (four perfect rounds), this contest is becoming very popular among the Old Timer movement, with some travelling from as far away as Bendigo to compete.

Many different models were flown and the finish on most models was of a very high standard, some were fitted with antique engines (pre 1950), a Dooling 29, a Mc.Coy 60 and even an spark ignition engine. The trophy for "The Most Authentic Model", which was voted on by all contestants, was won by Lyall Ford's Flamingo which was beautifully finished.

After the Fly-off was completed, the presentations were made by Mr. Warwick Bates, the Secretary of the Society of Antique modellers (Australia), who congratulated the winners and thanked the L.V.M.A.C. for organising a great day.

I would like to thank Ron Bartlett for his help in organising the contest and the scoring, Gordon and Jason Barrett, Allan Beggs, Shane Mostert and Don Grant for the preperation of the field on the Saturday and also for thier help during the contest, Also Heather Bartlett and Thelma Mostert for supplying and cooking hamburgers and hot dogs and making cups of tea and coffee all day long. I am sure thier efforts were well appreciated by all. Without ~~the help of these people~~ these contests would not be possible, Thank you all.
