

The Vintagents are proud to present the

Society of Antique Modellers

Chapter 84's 2010

Old Timer

Championships

at

Dalby Qld

June 12, 13, & 14th 2010

Where?

At the Dalby Model Aircraft Club's new field, formally number 734 Cecil Plains Road and is accessed by the *recently resurfaced* gravel road running about 1 km to the left. This may sound confusing but the facility is adjacent to the first clump of trees on the left, after you pass the Daybreak farm entry.

What's on?

Saturday June 12

0900 - Gordon Burford, a one hour break for a round of Climb and glide, followed by Duration.

Saturday night: Barbeque at the field

Sunday June 13

0830 - Texaco, a one hour break for a round of Climb and glide, followed by 1/2A Texaco

Sunday night: Presentation dinner at the Dalby RSL

Monday June 14

0830 Antique, a one hour break for the last round of Climb and glide, followed by Nostalgia.

What rules?

As current MAAA rule book.

However, we will be supplying our preferred blend of Texaco fuel, 20% oil 10% nitro, in addition to the 15/5% mix as per the rule book. Additionally we see no problem if competitors wish to blend the supplied castor based fuel with the supplied Cool power based fuel.

Note: Climb and Glide is not in the rule book and as we are adding a new element to the event an explanation of what we intend to do follows;

Any aircraft powered by an internal combustion engine is eligible.

You have a choice in how you want to make the climb, either a ONE minute engine run OR use 5 mils of fuel in a small aircraft. The variation is being introduced because of the performance of the ½ A models and the popularity of the emerging Tomboy event. Both types of aircraft will be credited in the results.

Who will be the first to scoop the prize pool with a ½ A ???

Pilot briefing Saturday 12th on the field at 0830.

Accommodation: Motels; Parkview on Drayton St. 07 4662 3222

Motel Myall, Drayton St. 07 4662 3399

Homestead, Drayton St. 07 4662 5722
